

**DP Multistage Stainless Steel Pumps Make Service Easy.**

**Dimensionally Interchangeable**  
with Competitive Vertical Pumps

**Low NPSH First Stage**

- No Motor Change
- Highest Efficiency

Industrial Processes

**Easy Access Seal**

- Keep 7.5 HP and Larger Motors in Place During Easy and Speedy Seal Changes

**Smart Plugs**

- Suction and Discharge Ports for Instrument Gauges
- No Need to Tap New Pipe

**DPV**

- Vertical Multistage
- AISI 304 or 316 SS Construction
- Accepts Standard NEMA C Face Motor

NSF/ANSI 61-G & 372

**Over 400 Pumps Stocked in the US For Next Day Shipment**

Condensate Returns

Booster Systems

Variable Speeds (VFD)

Boiler Feed Systems

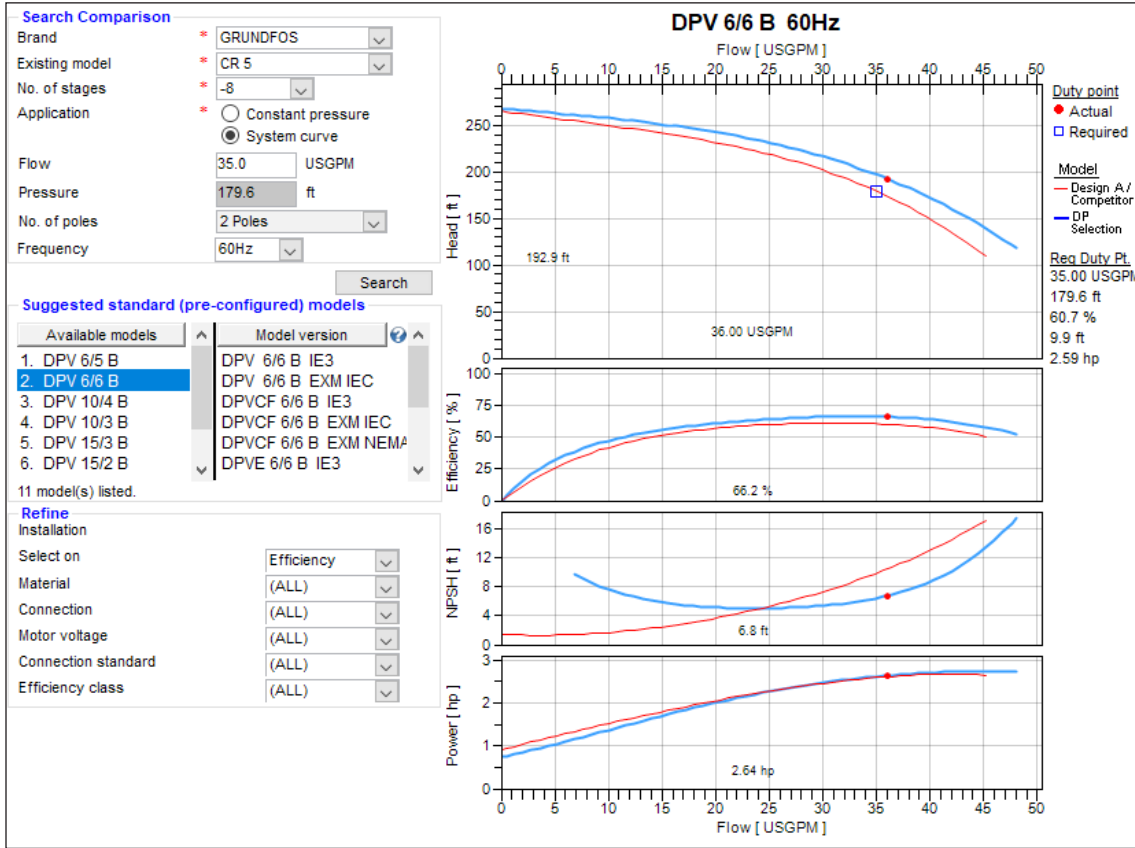

**DPHI / DPHM**

- Horizontal Multistage
- Same Hydraulics as DPV
- End Suction Casing
- Close coupled pump and motor

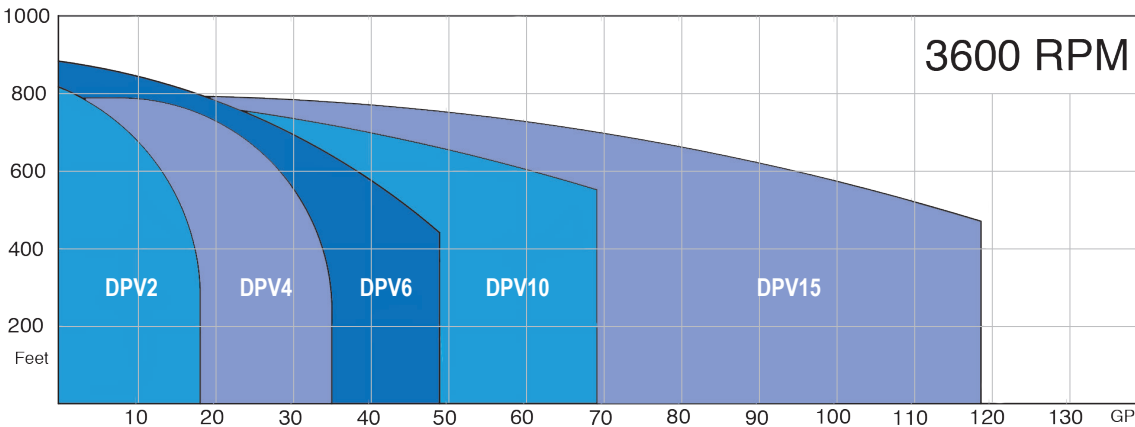

# Customize Your Pump Selection

Download and install the DP Select Program from [dppumps-usa.com](http://dppumps-usa.com) to create DP Pump performance curves and data sheets. The DP Select Program is available for PC as well as any Apple/Android device.

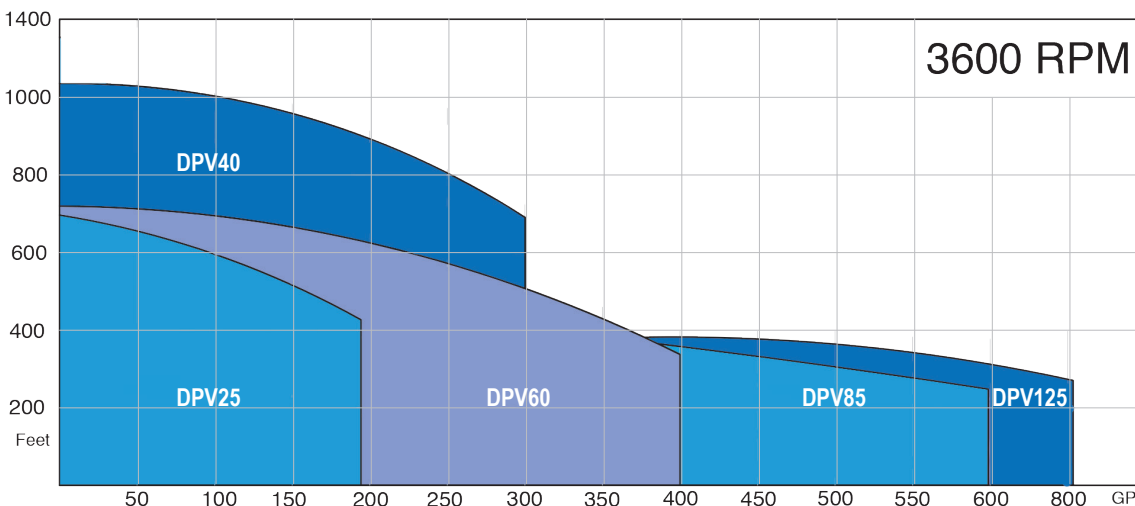

## Make a selection by

- Comparing with a Competitor
- Choosing a Pump Type
- Choosing Hydraulically

## Quick Facts:

- Manufactured in Holland
- 60,000-80,000 Pumps Per Year
- 63 years of Pumping Excellence
- Hollands Leading Vertical Pump Line
- 75% of Vertical Pumps in the Netherlands

- 4th Generation of Pump Lines
- 160,000 ft<sup>2</sup> Production Facility
- 325 Employees
- Exported to Over 100 Countries
- Committed to Excellence
